

EXCAVATION AT 4MSR BINJORE

During the years 2014-15 & 2015-16, the Excavation Branch II of Archaeological Survey of India conducted the excavation at 4 MSR, Binjore, Anupgarh, Rajasthan in collaboration with the Institute of Archaeology, Archaeological Survey of India under the directorship of Dr. S.K.Manjul. The 6.00 m cultural deposit of this site was divided into two periods i.e., Early Harappa & Mature Harappa. Some intermediate period between Early Harappan and Mature Harappan deposit was also encountered during the excavation.
