Draft Heritage Bye-laws The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj’ District- East Champaran, Bihar
In exercise of the powers conferred by section 20 E of the Ancient Monuments and Archaeological Sites and Remains Act, 1958 read with Rule (22) of the Ancient Monuments and Archaeological Sites and Remains (Framing of Heritage Bye-laws and Other Functions of the Competent Authority) Rule, 2011, the following draft Heritage By-laws for the Centrally Protected Monument “The Asoka column known as Laur Pillar at Laurie Areraj, thana Gobindganj’ District- East Champaran, Bihar.” prepared by the Competent Authority, as required by Rule 18, sub-rule (2) of the National Monuments Authority (Conditions of Service of Chairman and Members of Authority and Conduct of Business) Rules, 2011, for inviting objections or suggestions from the public.

The objections/suggestions received before the specified date have duly been considered by the National Monuments Authority in consultation with the Competent Authority.

Now, therefore, in exercise of the powers conferred by clause (5) of the section 20 (E) of the Ancient Monuments and Archaeological Sites and Remains Act, 1958 the National Monuments Authority, hereby make the following bye-laws namely:-

Draft Heritage Bye-Laws

CHAPTER I

PRELIMINARY

1.0 Short title, extent and commencements:-

(i) These bye-laws may be called the National Monuments Authority bye-laws 2021 of Centrally Protected Monument “The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj’ District- East Champaran, Bihar”

(ii) They shall extend to the entire prohibited and regulated area of the monuments.

(iii) They shall come into force with effect from the date of their publication.
1.1 Definitions:

(1) In these bye-laws, unless the context otherwise requires, -

(a) “ancient monument” means any structure, erection or monument, or any tumulus or place or interment, or any cave, rock sculpture, inscription or monolith, which is of historical, archaeological or artistic interest and which has been in existence for not less than one hundred years, and includes-

(i) The remains of an ancient monument,
(ii) The site of an ancient monument,
(iii) Such portion of land adjoining the site of an ancient monument as may be required for fencing or covering in or otherwise preserving such monument, and
(iv) The means of access to, and convenient inspection of an ancient monument;

(b) “archaeological site and remains” means any area which contains or is reasonably believed to contain ruins or relics of historical or archaeological importance which have been in existence for not less than one hundred years, and includes-

(i) Such portion of land adjoining the area as may be required for fencing or covering in or otherwise preserving it, and
(ii) The means of access to, and convenient inspection of the area;

(c) “Act” means the Ancient Monuments and Archaeological Sites and Remains Act, 1958 (24 of 1958);

(d) “archaeological officer” means and officer of the Department of Archaeology of the Government of India not lower in rank than Assistant Superintendent of Archaeology;

(e) “Authority” means the National Monuments Authority constituted under Section 20 F of the Act;

(f) “Competent Authority” means an officer not below the rank of Director of archaeology or Commissioner of archaeology of the Central or State Government or equivalent rank, specified, by notification in the Official Gazette, as the competent authority by the Central Government to perform functions under this Act:

Provided that the Central Government may, by notification in the Official Gazette, specify different competent authorities for the purpose of section 20C, 20D and 20E;

(g) “construction” means any erection of a structure or a building, including any addition or extension thereto either vertically or horizontally, but does not include any reconstruction, repair and renovation of an existing structure or building, or, construction, maintenance and cleansing of drains and drainage works and of public latrines, urinals and similar conveniences, or the construction and maintenance of works meant for providing supply or water for public, or, the construction or maintenance, extension, management for supply and distribution of electricity to the public or provision for similar facilities for public;
(h) “floor area ratio (FAR)” means the quotient obtained by dividing the total covered area (plinth area) on all floors by the area of the plot;
   \[ \text{FAR} = \frac{\text{Total covered area of all floors}}{\text{plot area}} \]

(i) “Government” means The Government of India;

(j) “maintain”, with its grammatical variations and cognate expressions, includes the fencing, covering in, repairing, restoring and cleansing of protected monument, and the doing of any act which may be necessary for the purpose of preserving a protected monument or of securing convenient access thereto;

(k) “owner” includes-

   (i) a joint owner invested with powers of management on behalf of himself and other joint owners and the successor-in-title of any such owner; and
   (ii) any manager or trustee exercising powers of management and the successor-in-office of any such manager or trustee;

(l) “preservation” means maintaining the fabric of a place in its existing and retarding deterioration.

(m) “prohibited area” means any area specified or declared to be a prohibited area under section 20A;

(n) “protected area” means any archaeological site and remains which is declared to be of national importance by or under this Act;

(o) “protected monument” means any ancient monument which is declared to be of national importance by or under this Act;

(p) “regulated area” means any area specified or declared to be a regulated area under section 20B;

(q) “re-construction” means any erection of a structure or building to its pre-existing structure, having the same horizontal and vertical limits;

(r) “repair and renovation” means alterations to a pre-existing structure or building, but shall not include construction or re-construction;

(2) The words and expressions used herein and not defined shall have the same meaning as assigned in the Act.
CHAPTER II

Background of the Ancient Monuments and Archaeological sites and remains (AMASR) Act, 1958

2.0 Background of the Act:- The Heritage Bye-Laws are intended to guide physical, social and economic interventions within 300m in all directions of the Centrally Protected Monuments. The 300m area has been divided into two parts (i) the Prohibited Area, the area beginning at the limit of the Protected Area or the Protected Monument and extending to a distance of one hundred meters in all directions and (ii) the Regulated Area, the area beginning at the limit of the Prohibited Area and extending to a distance of two hundred meters in all directions.

As per the provisions of the Act, no person shall undertake any construction or mining operation in the Protected Area and Prohibited Area while permission for repair and renovation of any building or structure, which existed in the Prohibited Area before 16 June, 1992, or which had been subsequently constructed with the approval of DG, ASI and; permission for construction, re-construction, repair or renovation of any building or structure in the Regulated Area, must be sought from the Competent Authority.

2.2 Rights and Responsibilities of Applicant:- Section 20C, AMASR Act, 1958, specifies details of application for repair and renovation in the Prohibited Area, or construction or re-construction or repair or renovation in the Regulated Area as described below:

(a) Any person, who owns any building or structure, which existed in a Prohibited Area before 16th June, 1992, or, which had been subsequently constructed with the approval of the Director-General and desires to carry out any repair or renovation of such building or structure, may make an application to the Competent Authority for carrying out such repair and renovation as the case may be.

(b) Any person, who owns or possesses any building or structure or land in any Regulated Area, and desires to carry out any construction or re-construction or repair or renovation of such building or structure on such land, as the case may be, make an application to the Competent Authority for carrying out construction or re-construction or repair or renovation as the case may be.

(c) It is the responsibility of the applicant to submit all relevant information and abide by the National Monuments Authority (Conditions of Service of Chairman and Members of the Authority and Conduct of Business) Rules, 2011.
CHAPTER III

Location and Setting of Centrally Protected Monuments/ Sites/ Group of Monuments:

3.0 Location and Setting of the Monuments:

1.1. Location and Setting of Centrally Protected Monuments/Sites/Group of Monuments

The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj

Locality- Lauriya Areraj
District- East Champaran, Bihar

Google Map Coordinates- 26°33'0.82"N, 84°38'51.28"E

Located 30 km to the south-west of Motihari, the village of Areraj is of religious importance. The Bettiah-Govindganj road National Highway passes just beside the monument from south; and the monument is directly accessible from it. Bapudham Motihari railway station, and Areraj chowk bus stop are at a distance of about 32.7 km (north-east), and 1.7 km (east) of the monument, respectively. Jaya Prakash Narayan International Airport, Patna, is at a distance of about 140 km, south-east of the monument.

“The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj”, District- East Champaran, Bihar

Map 1: Google map showing location of – “The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj”, District- East Champaran, Bihar, along with the protected, prohibited and regulated areas.
3.1 Protected boundary of the Monument:

The protected boundaries of the Centrally Protected Monument - The Asoka column known as Laur Pillar may be seen at Annexure -I

3.1.1 Notification Map/ Plan as per ASI records:

It may be seen at Annexure - II

3.2 History of the Monument/Site:

Lauriya Areraj is a village, situated 6.4 km north of Gobindgunj thana on the road leading towards Motihari. It contains one of the lofty stone columns erected by Asoka in 249 B.C. This ancient pillar has not escaped from the vandals, one of the first of whom was Reuben Burrow, a distinguished mathematician and astronomer, and one of the earliest members of the Asiatic society of Bengal, who had his name inscribed on it. This appears to be a favourite amusement of the scientist, for we also find his name chiselled on the Asoka pillars at Basarh and Lauriya Nandangarh. In each case the date is the same, i.e. 1792, the year of his death. The villagers call the pillar laur, i.e., the phallus, and the adjoining village is named after it Lauriya; here there is a temple of Mahadeo, 1.6 km south-west of the pillar, which is the site of a large annual fair.

3.3 Description of Monument (architectural features, elements, materials, etc.):

The pillar which bears in well-preserved and well-cut letters six of his edicts, is a single block of polished sandstone, 11.12m (36 ½ feet) in height above the ground, with a base diameter of 1.06 m (41.8 inches) and a diameter at the top of 0.95m (37.6 inches). The weight of this portion only is very nearly 34 tons, but as there must be several feet of the shaft sunk in the earth, the actual weight of the whole block must be little, if any. It has no capital but there can be no doubt that it must once have been crowned with a statue of some animal. These edicts, which date from 242 BC are most clearly and neatly engraved, and are divided into two distinct portions, that to the north containing 18 lines, and that to the south 23 lines. The edicts deal with different subjects as under:

- Edict I - The principle of Government
- Edict II – the royal examples
- Edict III – Self-examination
- Edict IV – the powers and duties of the Commissioners
- Edict V – regulations restricting slaughter and mutilation of animals
- Edict VI – the necessity for a definite creed.

3.4 Current Status:

3.4.1 Condition of the Monument- condition assessment:

The monument is in a good state of preservation, except some damage at the bottom part of the pillar.

3.4.2 Daily footfalls and occasional gathering numbers:

The average number of visitors at the monument is 20-25 per day.
CHAPTER IV
Existing zoning, if any, in the local area development plans

4.0 Existing zoning:
The monument lies under the Aereraj Nagar Panchayat.
No zoning has been made in the state government act/ rules/ master plan for this monument.

4.1 Existing Guidelines of the local bodies:
   It may be seen at Annexure-III
CHAPTER V

Information as per First Schedule, Rule 21(1)/ total station survey of the Prohibited and the Regulated Areas on the basis of boundaries defined in Archaeological Survey of India records.

5.0 Contour Plan of:
Survey plan may be seen at Annexure-I

5.1 Analysis of surveyed data:

5.1.1 Prohibited Area and Regulated Area details and their salient features:

Protected area (approx.) : 14,946.723 sq.m. (3.69 acres)  
Prohibited area (approx.) : 82,951.65 sq.m. (20.49 acres)  
Regulated area (approx.) : 3,66,652.13 sq.m. (90.60 acres)  
(Information has been obtained from the Surveyor officer, Patna circle)

Salient features:
Located 30 km to the south-west of Motihari, the village of Areraj is of religious importance. Areraj is an abode of an ancient temple dedicated to Lord Shiva, and a large number of people visit this temple in the month of Sawan (July-August). The monument is located in a semi-rural type of setting surrounded by agricultural land on almost all sides, along with semi-pucca type of house construction.

5.1.2 Description of built up area:

Prohibited Area:

North: Bore well; agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural purposes]  
South: Bettiah-Govindganj road (NH); electric pole; agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural purposes]  
East: buildings and structures ranging from G to G+1 in height; earthen road; canal; hand pump; electric post; telephone post; agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]  
West: buildings and structures ranging from G to G+1 in height; earthen road; Rajepur-Lauriya road; hand pump; bore well; agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]

Regulated Area:

North: pond; earthen road; canal; electric post; agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural purposes]  
South: Agricultural land. [This area is used mainly for agricultural purposes]  
East: Buildings and structures ranging from G to G+1 in height; Bettiah Govindganj road (NH); earthen road; restaurant; government school; electric post; agricultural
land; open spaces with vegetation growth. [This area is used mainly for agricultural purposes, and other activities like institutional, residential and commercial, can also be seen]

**West:** Buildings and structures ranging from G to G+1 in height; Bettiah Govindganj road (NH); Rajepur-Lauriya road; earthen road; Hanuman temple; hand pump; bore well; agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]

**North-west:** Buildings and structures ranging from G to G+1 in height; Rajepur-Lauriya road; earthen road; electric post; hand pump; bore well; agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]

5.1.3 Description of green/open spaces:

**Prohibited Area:**

**North:** Agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural purposes]

**South:** Agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural purposes]

**East:** Agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]

**West:** Agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]

**Regulated Area:**

**North:** canal; agricultural land; vast open spaces with vegetation growth. [This area is used mainly for agricultural purposes]

**South:** agricultural land. [This area is used mainly for agricultural purposes]

**East:** agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural purposes, and other activities like institutional, residential and commercial, can also be seen]

**West:** buildings and structures ranging from G to G+1 in height; Bettiah Govindganj road (NH); Rajepur-Lauriya road; earthen road; Hanuman temple; hand pump; bore well; agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]

**North-west:** buildings and structures ranging from G to G+1 in height; Rajepur-Lauriya road; earthen road; electric post; hand pump; bore well; agricultural land; open spaces with vegetation growth. [This area is used mainly for agricultural and residential purposes]
5.1.4 Area covered under circulation – roads, footpaths, etc.

The National Highway running from south of the monument, provides good connectivity to the nearby areas and to the city. In both prohibited and regulated limits metallled road and earthen roads are present. The area nearby the monument has a semi-rural type of setting.

5.1.5 Heights of buildings (Zone wise):

A. 100m – 200m from prohibited limit: (first regulated area)

North: The maximum height is 0 m.
South: The maximum height is 0 m.
East: The maximum height is 7 m.
West: The maximum height is 7 m.
North-east: The maximum height is 0 m.
South-east: The maximum height is 7 m.
South-west: The maximum height is 7 m.
North-west: The maximum height is 7 m.

B. 200m - 300m from first regulated limit: (second regulated area)

North: The maximum height is 7 m.
South: The maximum height is 0 m.
East: The maximum height is 7 m.
West: The maximum height is 7 m.
North-east: The maximum height is 7 m.
South-east: The maximum height is 7 m.
South-west: The maximum height is 7 m.
North-west: The maximum height is 7 m.

5.1.6 State protected monuments and listed Heritage Buildings by local Authorities, if available, within the Prohibited/Regulated Area:

No state protected monuments and listed heritage buildings by local authorities are available within the prohibited/regulated area of the monument.

5.1.7 Public amenities:

Well connected footpath, drinking water facility and toilets are present inside the protected area of the monument

5.1.8 Access to monument:

The Bettiah-Govindganj road National Highway passes just beside the monument from south; and the monument is directly accessible from it.
A well connected pathway leads to the main monument. The protected area is allowed only for pedestrians. The primary mode of transportation is by taxis, motorcycles, scooters, cars, etc.
5.1.9 Infrastructure services (water supply, storm water drainage, sewage, solid waste management, parking etc.):
Infrastructure services water supply, storm water drainage, sewage, and solid waste management, are present inside the protected area of the monument.

5.1.10 Proposed zoning of the area as per guidelines of the Local Bodies:
Zoning has been already mentioned in the above clauses (3.2.1-3.2.5) as per the:
   ii. Bihar Building Byelaws, 2014
   iii. Motihari City Development plan 2030

CHAPTER VI
Architectural, historical and archaeological value of the monument

6.0 Architectural, historical and archaeological value:

Historical value:
Lauriya Areraj is a village, situated 6.4 km north of Gobindgunj thana on the road leading towards Motihari. It contains one of the lofty stone columns erected by Asoka in 249 B.C. This ancient pillar has not escaped the vandals, one of the first of whom was Reuben Burrow, a distinguished mathematician and astronomer, and one of the earliest members of the Asiatic society of Bengal, who had his name inscribed on it. This appears to be a favourite amusement of the scientist, for we also find his name chiselled on the Asoka pillars at Basarh and Lauriya Nandangarh. In each case the date is the same, i.e. 1792, the year of his death. The villagers call the pillar laur, i.e., the phallus, and the adjoining village is named after it Lauriya; here there is a temple of Mahadeo, 1.6 km south-west of the pillar, which is the site of a large annual fair.

Architectural value:
The pillar, which bears in well-preserved and well-cut letters six of his edicts, is a single block of polished sandstone, 36 ½ feet in height above the ground, with a base diameter of 41.8 inches and a diameter at the top of 37.6 inches. The weight of this portion only is very nearly 34 tons, but as there must be several feet of the shaft sunk in the earth, the actual weight of the whole block must be little, if any, it has no capital but there can be no doubt that it must once have been crowned with a statue of some animal. These edicts, which date from 242 BC are most clearly and neatly engraved, and are divided into two distinct portions, that to the north containing 18 lines, and that to the south 23 lines. The edicts deal with different subjects as under:
Edict I - The principle of Government
Edict II – the royal examples
Edict III – Self-examination
Edict IV – the powers and duties of the Commissioners
Edict V – regulations restricting slaughter and mutilation of animals
Edict VI – the necessity for a definite creed.

They are in a good state of preservation, but the northern face of the pillar has suffered from the effects of the weather, and looks quite black, while the polish which is beautifully preserved elsewhere has disappeared.

6.1 Sensitivity of the monument (e.g. developmental pressure, urbanization, population pressure etc.):

Few development and construction activities have come up in the recent year due to good connectivity to the main city via the national highway. However vast fields of agricultural fields are to be found towards the south of the monument.

6.2 Visibility from the Protected Monument or Area and visibility from Regulated Area:

Visibility from all directions of prohibited and regulated area to the monument-
The monument is visible from the prohibited and regulated areas.
Visibility from the monument-
To the south and to the north, can be seen vast tracts of agricultural fields. Building and structures ranging from single storey to double storey in height can be seen from the monument.

6.3 Land-use to be identified:

The land nearby, is mostly used for residential, commercial, institutional and agricultural purposes.

6.4 Archaeological heritage remains other than protected monuments:

No other archaeological heritage remains other than the protected monuments are present within the prohibited and the regulated areas of the monument.

6.5 Cultural landscapes:

The monument is surrounded by modern constructions in the form of residential and other kinds of constructions.

6.6 Significant natural landscapes that form part of cultural landscape and also help in protecting monuments from environmental pollution:

A national highway passes by the village, many construction activities in the form of residential buildings have come up in the recent years towards the north-west of the
The monument lies amidst vast tracts of agricultural fields and open spaces with vegetation growth. Hence, they form a significant part of cultural landscape and also help in protecting the monument from environmental pollution.

6.7 Usage of open space and constructions:

The prohibited and regulated areas are covered by residential and commercial buildings ranging from G to G+1 in height, vast tracts of agricultural land and vegetation cover.

6.8 Traditional, historical and cultural activities:

No traditional, historical and cultural activities are associated with the monument. Due to its historical and cultural values a large number of visitors do frequent this place due to the calm and serene atmosphere that the surrounding landscape offers.

6.9 Skyline as visible from the monument and from Regulated Areas:

Buildings ranging from G to G+1 in height, as well as vast tracts of picturesque agricultural land can be seen from the monument.

6.10 Traditional Architecture:

No traditional architecture is present around the monument.

6.11 Development plan, as available, by the local authorities:

It may be seen at Annexure- V

6.12.1.1 Building related parameters:

(a) Height of the construction on the site:

Note:
1. The above mentioned height of the buildings excludes the height of the parapet wall, mumpty and water tank which should not be more than 2.5m.
2. Apart from this, National Monument Authority may take its final decision.
3. * Although there are 7m mentioned in the state bye-laws [specified in Section C (subsection 3.2.2. (B. ii))]

(b) Floor Area:-
20 sq. m. to 200 sq. m. approximately

(c) Usage: - The area nearby are used for:
  i. Residential
  ii. Commercial
  iii. Religious
  iv. Agriculture
  v. Institutional

(d) Façade design:- The existing buildings and structures in the Prohibited and the Regulated area are of modern style having modern facades.

(e) Roof design
  i. Flat slab concrete roofs can be seen.
  ii. Aluminium tin shaded roofs

(f) Building material
Modern building construction materials like brick, stone, cement and concrete is used in the nearby buildings.

(g) Colour Variety of shades of colours can be seen in the nearby buildings and structures.

6.13 Visitors facilities and amenities:
Visitor facilities like well connected footpath, toilet and drinking water facility is present inside the protected area of the monument. However, parking can be done outside the monument for visitors.
CHAPTER VII
Site Specific Recommendations

7.1 Site Specific Recommendations:

A periodic public awareness programme should be organized by the Archaeological Survey of India with the local stake holders and residents of the area so that people can understand its archaeological value.

The monument must be protected from any water entering due to the heavy flooded rice fields and agricultural land surrounding the monument.

7.2 Other recommendations:

- Extensive public awareness programme may be conducted.
- Provisions for differently able persons shall be provided as per prescribed standards.
- The area shall be declared as Plastic and Polythene free zone.
- A periodic public awareness programme should be organized in collaboration with the Archaeological Survey of India’s local office along with the local stake holders and residents of the area so that people can understand its archaeological value.
- Nearby this monument there is water body (pond), which is an integrated part of the temple, but not under the protection of ASI. Since, it is an integrated part of the temple, hence, efforts needs to be made for its desilting and restorations by the local authorities, and for that, ASI has to launch periodic public awareness programme to aware the local public.
Provided information as per First Schedule [Rule 21 (1)}/ Total Station Survey/ Survey of India/ Officially commissioned survey maps (whichever is available) of the Prohibited and Regulated area on the basis of boundaries defined in ASI records

Map 2: Survey plan showing Protected, Prohibited and Regulated boundaries for ‘The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj’, District- East Champaran, Bihar
1.2. Notification map/plan as per ASI records - definition of protection boundaries

The monument was protected on 8th March 1913 vide notification No. 370-E, by the name of 'The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj.'
Typed copy of Original Notification

POLITICAL, APPOINTMENT AND EDUCATION DEPARTMENTS

The 20th August, 1912

No. 2036E.- In exercise of the power conferred by section 3 sub-section (1) of the Ancient Monuments Preservation Act, 1904 (VII of 1904), the Lieutenant-Governor is pleased to declare the ancient monuments described below, in the mauzas noted against each, in the Sadr and Bettiah sub-divisions of the Champaran district, to be protected monuments within the meaning of the said Act:-

Sadr Subdivision

1. The Asoka column known as Laur Pillar at Lauriya Areraj, thana Gobindganj.

2. Any objections to the issue of this notification which are received by the undersigned within one month from the date on which a copy of the notification is fixed up in a conspicuous place on or near the said monuments will be taken into consideration.

H. LEMESURIER,
Chief Secretary to the Government of Bihar and Orissa

The 8th March 1913

No. 370E.- In exercise of the power conferred by sub-section (3) of section 3 of the Ancient Monuments Preservation Act, 1904 (Act VII of 1904), the Lieutenant-Governor in Council is pleased to confirm the Notification No. 2036E., dated the 20th August 1912, which was issued under sub-section (1) of that section and published at page 467 of Part II of the Bihar and Orissa Gazette of the 21st August 1912.

H. LEMESURIER,
Chief Secretary to the Government of Bihar and Orissa
ANNEXURE III

Existing Guidelines of the Local Bodies

There are following act/ rules/ master plan/ bye-laws, wherein provisions are made for the heritage/ monument. Out of these act/ rules/ master plan/ bye-laws, the ‘Bihar Urban Planning and Development Act, 2012 [Bihar Act 20, 2012]’ and ‘Bihar Building Byelaws, 2014’, are common and applicable for all over the state. While ‘Motihari City Development plan 2030’, specify on the heritage of ASI and the monument as stated above.

A. In the Bihar Urban Planning and Development Act, 2012 [Bihar Act 20, 2012], chapter XI (Urban Arts and Heritage Commission), under section 77 (Constitution of Urban Arts and Heritage Commission for the State)- the following has been mentioned:

1) The Government may, by notification, constitute an Arts and Heritage Commission for the State, to be called “The Bihar Urban Arts and Heritage Commission” (hereinafter called the “Commission”) which shall consist of a Chairperson and such other members, representing among others, Urban Planning, Visual Arts, Architecture, Indian History or Archaeology, Tourism and the Environmental Sciences, as specified in the notification by the Government.

2) The Commission shall make recommendations to the Government as to-
   a) The restoration and conservation of urban design and of the environment and heritage sites and buildings in the Planning Areas;
   b) The planning of future urban design and of the environment;
   c) The restoration and conservation of archaeological and historical sites and sites to high scenic beauty;

3) The powers to be exercised and the functions to be performed and the procedure to be followed by the Commission shall be such as may be specified in the notification.

4) The Government may, after consideration of the recommendations of the Commission and after giving an opportunity to the respective Planning Authority, Local Authority and other authorities concerned to make representation, issue such directions to the Planning Authority or Local Authority or other authorities concerned as they may think fit, and the Planning Authority or the Local Authority or other authorities shall comply with every such direction of the Government.

For implementations of Bihar Urban Planning and Development (BUPD) Act 2012, Bihar Urban Planning and Development (BUPD) Rule was notified in the year-2014.

B. In the Bihar Building Byelaws 2014:

In chapter II (Administration), Section 19 (Art Commission), the following has been mentioned:

1) The Urban Art and Heritage Commission shall be constituted by the government. In areas and zones specified by the Urban Art and Heritage Commission, where the building plan accompanying the application seeking permission, requires the clearance of the Urban Arts and Heritage Commission, Bihar, constituted under section 77 of the Bihar Urban Planning and Development Act, 2012, the authority shall grant the permission only after the clearance is given by the said commission. In all other cases, architectural control shall be regulated according to the provisions of these bye laws.
The commission may impose such conditions and restrictions as it may think necessary including enforcement of specific colour code and architectural features.

2) The Authority, on the recommendation of the Urban Arts and Heritage Commission, may issue public notices, from time to time, prescribing the architectural norms in different zones.

C. As per **City Development Plan 2030** of Motihari Municipal Council-

1) In Section 6 (Heritage and tourism), sub-section 6.2 (Heritage and Conservation):
Motihari has a number of heritage buildings and temples, which are scattered at regional level. These buildings or heritage sites require extensive listing. There are no identified protected sites within the city but within the district, the Archeological Survey of India (ASI) has protected 3 archeological sites:
   i. Fort ruins, tank and Stupa, Sagardih, East Champaran
   ii. Buddhist Stupa, Tajpur Deur, East Champaran
   iii. Asoka column known as Laur pillar, Lauriya Areraj, East Champaran

2) In Section 6 (Heritage and tourism), sub-section 6.4.1 (Regional Tourism Potential)
East Champaran, an administrative district of Bihar, is blessed with lush green surroundings and myriad tourist attractions. The district is significant in terms of mythology as well as history, making it a delight for those interested in the past. Efficient means of transport and good connectivity with other parts of the state has made East Champaran one of the frequented tourist spots of Bihar. Let us learn about the places to see in East Champaran.

Historical monuments like Mahatma Gandhi Museum, Mahatma Gandhi Smarak Gate, Gandhi Memorial, Ashok Pillar (Lauria, Areraj), Bodh Stupa Keshria, Someshwarnath Shiv Temple, Areraj. These historical places are outside the municipal boundary.

**Permissible Ground Coverage, FAR/FSI and heights within the regulated area for new construction; and setbacks:** The general rules of construction shall be applicable for all development projects as per the **Bihar Building Byelaws 2014**, as amended from time to time.

A. As per chapter IV (General Requirements), **Section 38 (Floor Area Ratio)**, of the Bihar Building Byelaws 2014, the following has been mentioned:

   i. The Floor Area Ratio (F.A.R) for buildings shall be decided on the basis of the road width on which the plot/site abuts as per Table 2 and 3.

<table>

ii. While sanctioning the plans on building with a road width of 12 feet and 16 feet, the Authority shall ensure that enough parking spaces for vehicles have been made within the building and that the vehicles shall not be parked on the road. Provisions related to length of the road in Table 6 shall be adhered to.

iii. Additional FAR up to 10% upto a maximum of 0.25 shall be allowed for dwelling units meant exclusively for LIG/EWS in a group housing scheme.

iv. In case of Educational, Institutional and Assembly building the maximum permissible FAR shall be 1.50 for plots up to 1000 sq. m. and 1.75 for plots above 1000 sq. m.

v. In case of transport related activities such as; railway yards, railway station, bus stands, bus shelters, transport depot, airport, special warehousing, cargo terminals etc. the maximum permissible FAR shall be 1.50.

vi. In case of Industrial buildings the maximum FAR shall be 0.5 for polluting and hazardous industries. In case of non-polluting and household industries the maximum FAR shall be 1.5.

vii. The FAR and Height of the building may also be regulated by the master plan/development plan or the zonal plan.

viii. In case the plot is affected by a road widening and the owner of the plot voluntarily surrenders the affected portion of his land to the Authority without any claim of compensation or through a TDR (Transferable Development Right) scheme implemented by the Government the owner shall be entitled to build on the remaining plot an area, calculated on the basis of the FAR as applied to the total area prior to such surrender. Provided that the surrender of the land shall be affected by a deed of transfer to be executed by the owner in favor of the Authority for widening of road.

ix. Exclusive multistory parking blocks can be provided within the required setback area without reducing the driveway for the fire tender to the extent of minimum 6 meters. This will not be included in the calculation of FAR.

x. FAR shall not include
   a. Basements or cellars and space under a building constructed on stilts and used only as a parking space, and air conditioning plant room used as accessory to the principal use;
   b. Stilt Parking
   c. Exclusive Multi Storey Parking made only for the purpose of parking vehicles and not put to any other use.
   d. Electric cabin or substation, watchman booth of maximum size of 3 sq.m. with minimum width or diameter of 1.732 m., pump house, garbage shaft, space required for location of fire hydrants, electric fittings and water tank, society room of maximum 12 sq.mtr.
   e. Projections and accessories buildings as specifically exempted from the open space/setback requirement.
   f. Staircase room and lift rooms above the topmost storey, architectural features, and chimneys and elevated tanks of dimensions as permissible under the NBC; the area of the lift shaft shall be taken only on one floor.
g. 50% of the area of projected balcony as per bye laws 45(4) shall not include.

11) Additional FAR may be allowed for Government Buildings/ Government Projects with the prior approval of the Government.

B. As per chapter IV (General Requirements), Section 39 (Height of a building), of the Bihar Building Byelaws 2014, the following has been mentioned:

The height of the building shall be governed by the limitations of Floor Area Ratio, open space (setbacks), and the width of the street facing the plot described as detailed below:

a. The maximum height of a building shall in no case exceed (1.5 times X the width of the road on which the plot abuts) + the front setback. It shall be applicable only in case of unused permissible FAR for plots abutting on road of average existing width not less than 9.10 m wide.

b. If a building abuts on two or more streets of different widths, the building shall be deemed to face upon the street that has the greater width and the height of the building shall be regulated by the width of the street. Provided that the roads on the other sides shall also conform to provisions made under bye law 33.

C. As per chapter IV (General Requirements), Section 33 (Means of Access), of the Bihar Building Byelaws 2014, the following has been mentioned:

i. Every building/plot shall abut on a public/private means of access like streets/roads of duly formed of width as specified in these byelaws or specified in the Master Plan/Development/Zonal Plan/Scheme. The minimum width of the road/street required for access to building in an existing colony not developed by any authorized agency such as Regional Development Authority, Municipality, Housing Board, Co-operative societies, Government and Semi government organization shall be as per the following table:

### Table 4: Length of road limitation

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Note-On less than 20 feet wide roads the encroachment from both sides will be removed by measuring 10 feet from the centre line of the width of roads declared by or belonging to Road Construction Department. Patna Municipal, Authority, Housing Board, Co-operative Societies, Government and Semi-Government Organizations. In other cases maximum 10 feet land from such revenue plot on either side will be taken into account to make it 20 feet wide road and the construction falling in between the
said width of road will be removed as an encroachment. Similarly 6 feet and 8 feet land from each Revenue plot on either side will be taken into account to make it 12 feet and 16 feet wide road correspondingly.

</tbody>
</table>

Further, in no case the means of access shall be lesser in width than the internal access ways in layouts and subdivision.

ii. No building construction activity shall happen on a road with a width of less than 12 ft. (Including Road Widening) in old area.

iii. In case of areas notified as New Areas by the authority with the approval of the department, no construction shall be allowed where the means of access is less than 20 feet.

iv. Unless and otherwise specified, development of plots shall not be permitted unless it is accessible by a public/private street with the width specified in these bye laws. The width of the road may be increased in a master plan/development plan/zonal plan but under no circumstance the provisions for width of road shall be less than the provisions made under these bye laws.

v. In case of institutional, administrative, assembly, industrial and other non-residential and commercial activities, the minimum road width shall be 12.20 meters.

vi. In case public land is not available for the road, the plot owners on both sides of the road shall equally surrender their right over the land to the authority to accommodate the road width. The centre line of the road shall be taken as reference for such surrenders.

vii. While calculating the width of the street for the purpose of sanctioning the building plan, the average width will be taken into consideration. The building plan shall be approved on the basis of the average width of the road as notified by the authority.

viii. In case of a private road, which gives access to one or more buildings, the owner of the said private road shall develop the road and storm water drain as required by the Local Authority, and transfer the same to the Registered Residents’ Welfare Association for maintenance.

**D.** As per chapter IV (General Requirements), **Section 34 (Minimum size of plots and road width)**, the following has been mentioned:

**Note:**

i. In exceptional cases the Authority may consider revising the minimum size of plot with the approval of the Government.

ii. The above (requirement) area of minimum size of the plot may be relaxed by 5% while sanctioning the plan.

iii. No high rise building (building with a height of 15 meters and above) shall be allowed on a plot size less than 800 sq. meters.

**E.** As per chapter IV (General Requirements), **Section 35 (Minimum setbacks & Height for non-high rise buildings)**, of the Bihar Building Byelaws 2014, the following has been mentioned:

The minimum setbacks and height of buildings permissible in a given size/plot for residential in non-high rising category shall be as per Table 6 and 7. The minimum setback for commercial and mercantile buildings shall be as per Table 8 and 9.

F. As per chapter IV (General Requirements), **Section 40 (Off Street Parking Space)**, of the Bihar Building Byelaws 2014, the following has been mentioned:

i. In all buildings including Apartment buildings/ Group Housing, Hotels, Restaurants and Lodges, business buildings, commercial buildings, Institutional buildings like hospitals, Educational buildings like schools and colleges, multistoried buildings/complexes etc. and all other non-residential activities provision shall be made for parking spaces as per the requirements mentioned in Table 10.

ii. The parking spaces may be provided in (for all schemes)
   a. Basements or cellars
   b. on stilt floor
   c. open parking area
   d. exclusive multi-level parking or
   e. Roof top parking in case of commercial/IT/ITES and corporate building
   f. A combination of any or all of the above.

Any provision made for parking shall not be included in the FAR calculation.

<td>25</td>
</tr>
</tbody>
</table>

i. Off-street parking spaces shall be provided with adequate vehicular access to a street and the area of drives, aisles and such other provisions required for adequate maneuvering of vehicles.

ii. If the total off-street parking space required under these bye laws is provided by a group of property owners at a place for their mutual benefit, such parking spaces may be construed as meeting the off-street parking requirement, however, subject to the approval of the Authority. The Authority may also decide to develop such parking spaces and charge property owners to bear proportionate cost.

iii. Garage with locking facilities shall be included in the calculation of floor space for determining the requirement of parking space, unless this is provided in the basement of a building or under a building constructed on stilts with no external walls.

iv. The parking spaces to be provided shall be in addition to the open spaces (setback) required around a building under these bye laws.

v. Misuse of the area specified for parking of vehicles for any other use shall be summarily removed / demolished by the Authority.

vi. For parking spaces in basements and upper storey of parking floors, at least two ramps of minimum 3.6 m width or one ramp of minimum 5.4 m width and in maximum 1:10 slope shall be provided. Such ramps may be permitted in the side and rear setbacks after leaving 3.60 meter space for movement of fire-fighting vehicles. Access to these may also be accomplished through provisions of mechanical lifts. The slab over which the fire tender shall move shall be cable of taking the load of fire engine, fire vehicle of atleast 45 tonnes.

vii. Up to 10% of cellar may be utilized for utilities and non-habitation purpose like A/C plant room, Generator room, Electrical installations, laundry etc.

viii. At least 15% of the parking space in group housing, apartment buildings shall be earmarked for visitors. Such parking space shall be indicated by painting “Visitor’s parking” on the floor. The Visitors parking facility shall be open to all visitors and shall not be settled with any occupant.

ix. All buildings with a height of 15 m and above will have parking space earmarked for ambulance, fire tender and physically challenged persons. Such spaces shall be
clearly indicated by painting on the floor the purpose for which the parking space is reserved.

x. Apart from use of Basement for Services/Parking/ Storage, it may be used for other activities like library, Study Room, Games Room and Laundry only in case of Residential and Institutional Buildings.

1.2.1. Heritage byelaws/ regulations/ guidelines if any available with local bodies

A. As per the Bihar Building Byelaws 2014:

i. In chapter II (Administration), Section 20 (Construction near protected monuments), the following has been mentioned:

a. No construction or re-construction of any building, within a radius of 100 meters, or such other higher distance from any archaeological site, as may be decided by the Archaeological Survey of India and Bihar State Art, Culture and Youth Department from time to time, from the outer boundary of a declared protected monument shall be permitted.

b. (i) No construction above 1st floor and above 7 (seven) meters shall be allowed beyond a radius of 100 meters and within a radius of 300 meters of such monuments.

   (ii) The construction or reconstruction of any building under sub-byelaw (2) shall not be above 7 (Seven) meters of total height.

1) Notwithstanding anything contained in the sub-byelaw (1) & (2) above, construction/re-construction/addition/alteration shall be allowed on production of clearance from A.S.I./State Archaeology Department as the case may be.

2) If a building or premises, not covered under The Ancient Monument Preservation Act, 1904, or The Ancient Monuments and Archaeological Sites and Remains Act, 1958, in the opinion of the Authority, is of historical or architectural interest, and is in danger of being demolished or altered or likely to be affected in its character by a development, the Authority shall not grant permission for construction over any land situated near the said building or premises. The matter shall be referred to the Art Commission, whose decision shall be final.

3) These provisions shall apply mutatis mutandis in respect of archaeological sites notified by the Art Commission.

4) An appeal against the decision under sub-byelaw (4) shall lie with the respective Tribunal under the Act or the Municipal Act.

ii. In chapter IV (General Requirements), Section 49 (Heritage Zone), the following has been mentioned:

1) The Authority may notify the Heritage Zones in consultation with the Archaeological Survey of India, State Department of Art Culture and Youth and the Art Commission.

2) Conservation of Heritage Buildings, Heritage Precincts and Natural features: Conservation of buildings, artifacts, structures, areas and precincts of historic and /or aesthetic and/or architectural and /or cultural significance (Heritage buildings and heritage precincts) and/or natural features of environmental significance shall be taken up by the Authority in accordance with the relevant
provisions in-force and those framed from time to time.

iv. In chapter V (Additional Requirements for safety and services), Section 57 (Restriction on construction of Multi-storied building), the following has been mentioned:

(3) Before commencement of these bye laws, where permission has been granted conditionally, such cases shall be dealt with under corresponding provisions of these Bye laws without any major change, or removal of construction, subject to the condition where violation of Heritage Zone conditions has occurred, this relaxation shall not apply.

1.2.2. Open spaces

A. As per chapter IV (General Requirements), Section 36 (Minimum setbacks for high rise buildings), of the Bihar Building Byelaws 2014, the following has been mentioned:

For high-rise/ multi-storied buildings, the open spaces around the building unless or otherwise specified shall be as given in the Table 14.

Table 12- Minimum exterior open spaces around the buildings for all type of high rise Buildings unless otherwise specified

2) In no case the minimum setbacks shall be less than those specified in Bye Law 37 for high rise buildings in the mentioned category.

3) In case of multi storied buildings the exterior open space around a building shall be of hard surface capable of taking load of fire engine weighting up to 45 tonnes.

B. As per chapter IV (General Requirements), Section 37 (General Conditions for Setback), of the Bihar Building Byelaws the following has been mentioned:

1. The minimum distance between two buildings will not be less than 1/3rd of the height of the taller building or 18m whichever is lower. However the minimum
width of the internal road shall not be less than 4.5 meters. In all cases, the width of such open space between the buildings on a plot shall not be less than the setback specified for the tallest building subject to a minimum of three meters within a plot.

2. The setbacks/open spaces for other occupancies shall be as below;
   a. **Educational buildings** - In case of educational buildings the open spaces around the building shall not be less than 6 meter. The front set back shall be 9 meters.
   b. **Institutional buildings** - The open spaces around the building shall not be less than 6 m. The front setback shall be 9m.
   c. **Assembly buildings** - The open space in front shall be not less than 12m and the other open spaces around the building shall not be less than 6m.
   d. **Malls and Multiplex** – The front set back shall not be less than 12 m, the rear set back shall not be less than 7 m and the side set back shall not be less than 7m.
   e. **Commercial & Storage buildings** - In case of plots with more than 1000 sq.mtr. area, the open spaces around the building shall not be less than 6.0m. The front setback shall be 9m. In all other cases it shall be as per Table 10.
   f. **Industrial buildings** –The setbacks shall be as per Table 12 and 13.
   g. **Hazardous occupancies** - the open spaces around the building shall not be less than 9 m. The front set back shall be 12m.
   h. **Slum Improvement**-The setback norms shall not apply to slums taken up under an approved programme of the Government subject to the specific sanction of the Government.
   i. **IT, ITES Buildings**-Abutting on 12 m R/W or more R/W the setback, height, number of floors and FAR shall be applicable as per commercial building in respect of corresponding road width.

1) The setbacks shall be calculated on the basis of highest provision of setback mentioned either in the above table or mentioned in these Bye Laws.

2) The setbacks are to be left after leaving the affected area of the plot/site, if any, for road widening.

3) Where a site abuts more than one road, then the front setback should be insisted towards the bigger road width and for the remaining side or sides, Side and rear setback shall be insisted.

4) For Plots above 300 sq.m a minimum 1m wide continuous green planting strip in the periphery sides are required to be developed and maintained within the side or rear setback.

5) For narrow plots having extent not more than 400 sq.m and where the length is 4 times of the width of the plot, the setbacks on sides may be compensated in front and rear setbacks so as to ensure that the overall aggregate setbacks are maintained in the site, subject to maintaining a minimum of side setback of 1m in case of buildings of height up to 10 m and minimum of 2m in case of buildings of height up to 12 m without exceeding overall permissible plinth area.

6) The master plan/development plan/zonal plan shall also specify a building line for various areas. The setbacks shall accordingly be changed without reducing the minimum required setbacks under these bye laws.
C. As per chapter IV (General Requirements), Section 45 (Exemption in Open space), of the Bihar Building Byelaws the following has been mentioned:

1) Every open space provided either in the interior or exterior in respect of any building shall be kept free from any erection thereon and shall be open to the sky and no cornice, roof, or weather shade of more than 0.75 m. in width shall overhang or project over such open space.

2) A portico of up to 2.5 m. width and 4.6 m. length with a minimum height of 2.4m from the plinth level may be permitted within the side setback. A garage is permissible at the rear end of side open space provided no openings are located on the side and rear boundary. Access to the top of the portico/garage should not affect the privacy of the neighboring plot.

3) The portico provided as above should not rest on the boundary wall and should be open to provide through access to the rear. In case the Portico is not a cantilevered one and supported by pillars the area shall be included in the FAR.

4) No projected balcony shall be allowed on setback less than 1.5 meters. Projected balcony shall be allowed with a width of 0.6 meters where the setback is between 1.5 meters to 2.5 meters. For setback more than 2.5 meters projected balcony shall be allowed with a width of 0.9 meters. Projected balcony shall only be allowed on the second floor and above floors. It may be allowed on first floor subject to condition that it shall not obstruct the clear vehicular and pedestrian movement around the building including movement of fire tender. 50% of the area on the projected balcony shall be taken into account for calculation of floor area.

1.2.3. Mobility with the prohibited and regulated area- road surfacing, pedestrian ways, non-motorised transport, etc.

No specific guidelines are made in the above said act and regulations regarding mobility within the prohibited and regulated area- roads facing, pedestrian ways, non-motorised transport, etc. However for road widths and means of access, the details are already stated in the above paras (sub- section 3.2.1. and 3.2).

1.2.4. Streetscapes, facades and new construction.

There is no specific account made in the above said act and regulations regarding facades. However for streetscape and new construction, the details are already stated in the above paras (sub- section 3.2.1. and 3.2.3.).
Provided information as per First Schedule [Rule 21 (1)]/ Total Station Survey/ Survey of India/ Officially commissioned survey maps (whichever is available) of the Prohibited and Regulated area on the basis of boundaries defined in ASI records
